

Press Release

Exentis Group AG - Successful ISO 9001 certification

- ◆ **Exentis successfully ISO 9001 certified**
- ◆ **Underlines commitment to meet international standards**
- ◆ **Standardised processes support further growth**

Stetten, Switzerland, April 27th, 2021 - Exentis Group AG, solution provider for Industrialized Additive Manufacturing, has been successfully ISO 9001 certified.

Exentis has just been awarded the certificate for the certification of the company headquarters in Stetten, Switzerland, as well as the Exentis Group in Germany.

The globally recognised industry standard underlines Exentis' commitment to meet international standards. The certification itself was prepared by a broad team of Exentis employees.

Uniform processes and structures will support structured growth and are a strong signal for customers as well as employees.

Gereon Heinemann, CEO of Exentis Group AG: "With this step, we can drive our success in industries especially in the field of 3D mass production even more intensively. The certification is another important milestone on our way to becoming an internationally qualified production and licensing partner for our customer network."

Über Exentis

As a solution provider, Exentis offers large-scale production of components with a free choice of materials and ultra-fine geometries. Industrialized Additive Manufacturing creates a new level of flexibility in 3D processes and replaces the time-consuming and costly production of tools when using established manufacturing technologies. Exentis optimises the entire process chain from the development project to the industrial production of millions of components for the application fields of industrial e-mobility, fuel cells or med-tech, among others. This enables the customer to decide between production of the components at Exentis or in-house production within the framework of licence agreements when acquiring the Exentis 3D development and production systems.
